

OUR FIRM

## Women's Committee

The Women's Committee provides the female attorneys of Olshan an outlet to grow their professional networks through their consistent interaction with other business and professional women exposing our lawyers to the concerns and interests of business leaders.

The Women's Committee, headed by partner Nina Rokat, focuses on making business connections. It brings our female attorneys together to use their business development skills and foster their intrinsic ability to build relationships. The Women's Committee reaches out to accomplished and aspiring business and professional women by hosting informative events. These events create unique opportunities for Olshan's female attorneys to exchange contacts, knowledge and ideas in a close and collegial environment. Our female attorneys are able to grow their professional networks through consistent interaction with other professional women. They also gain valuable exposure to the concerns and interests of leaders from a range of businesses and industries.
