

CAPABILITIES  
Art

Our attorneys are experienced in all aspects of the art world, representing galleries, artists, collectors and dealers. We offer a range of services including intellectual property, art related litigation, real estate leasing for galleries and artists' studios, tax, employment and other commercial transactions.

---

Our experience includes estate planning around art work, drafting of joint purchase agreements as well as overseeing section 1031 exchanges with art and gift planning.

Among clients concerned with art law, we represent leading American artist David Hammons, The Coningsby Gallery, Lehmann Maupin Gallery, Opera Gallery, Saffron Art and Sotheby's. Olshan litigators have worked in the area of recovery of stolen artwork, and we represented a private art dealer in connection with multiple civil litigations related to art fraud arising out of the former Salander-O'Reilly Galleries.
